“People who can't grasp what's important can never make the right decisions.”

## Summary

Passionate about crafting web solutions with an engineering approach, I am an open-source enthusiast and proud user of NixOS and Arch Linux. Embracing a continual learning mindset, I explore new technologies and tools to stay current in the ever-evolving field of web development.

## Skills

<b>DevOps</b>	Docker, Github CI
<b>Back-end</b>	Phoenix Framework, REST API
<b>Front-end</b>	Next.js, React, React Native, HTML, Tailwindcss
<b>Programming</b>	Elixir, Python, JavaScript, TypeScript, Rust, nix
<b>Languages</b>	English, Polish

## Experience

### Curiosum

FULLSTACK ELIXIR DEVELOPER - INTERN

Remote

1 month

- Created real-time web application with LiveView
- Created Postgres migrations with Ecto

## Projects

### Kotkowo

A CHARITY CAT ADOPTION WEBSITE

Elixir, Phoenix, Rust, Strapi, GraphQL

📄 Source

- Create interactive LiveView pages
- Work on NIF layer written in Rust
- Connect the app with Strapi

### librus-apix

API FOR LIBRUS SYNERGIA EDUCATIONAL PLATFORM

Python

📄 Source

- Used webscraping to fetch data from librus

### librus-restx

REST API USING FLASK-RESTX AND LIBRUS-APIX

Python, flask-restx, librus-apix

📄 Source

- Created RESTful API using flask-restx

### Libre-us

OPEN SOURCE ALTERNATIVE TO LIBURS MOBILE APP

JavaScript, React, Expo

📄 Source

- Created Authentication Flow
- Retrieved data from an external API

## Education

Zespół Szkół Elektrycznych im. prof. Janusza Groszkowskiego w Białymstoku

Białystok, Poland
